III. GENERAL REQUIREMENTS – NEEDS ASSESSMENT

Needs assessments resulting in procurements over \$500.00, other than those subject to a “formal solicitation process” as prescribed by the NYS Procurement Guidelines, require the completion of a Regulating District “Expenditure Request”. Needs assessments shall consider the following:

1. Successful completion of the Regulating District’s mission;
2. Monetary threshold as specified in Section VI; and
3. Competitive Procurement Methods as specified in Section IV and Non-Competitive Procurement Methods as specified in Section V.

The following purchases are not subject to a needs assessment:

1. Utilities
2. Fuel;
3. Network Support; and
4. Gas Card charges.

Procurement contracts involving services to be rendered over a period in excess of one year shall require approval of the Board by Resolution and an annual review of the contract(s) by the Board.

All procurement solicitations shall make explicit that any contract shall include and comply with “Appendix A – Standard Clauses for NYS Contracts”.

IV. COMPETITIVE PROCUREMENT METHODS

The Regulating District shall procure all goods and services on a Competitive Basis except as otherwise provided in this Policy. The competitive methods used to make procurements shall include:

1. *Centralized Contracts*. The Regulating District may obtain services, goods, or materials through contracts or other arrangements instituted by the New York State Office of General Services or the United States General Services Administration. In addition, the Regulating District may obtain services, goods, or materials through contracts or other arrangements instituted by local governments provided that the procurement complies with applicable procurement laws, regulations, and guidelines for the use of such contracts.
2. *Comparative Pricing*. The Regulating District may solicit and compile quotes from qualified potential contractors and conduct a comparative analysis of the cost of each good, material, or service required. In considering an award on the basis of best value, the Regulating District shall in accordance with 5 NYCRR §142.3(b) determine in writing whether it is practicable, feasible, and appropriate to evaluate the diversity practices of potential contractors.
3. *Invitations for Bids*. The Regulating District may advertise/solicit/invite sealed price bids for specified services (other than Professional Services), goods, and/or materials to be awarded to the lowest responsible bidder after the submission of a responsive bid.
 - a. For every contract awarded pursuant to sealed competitive bids, the Regulating District shall follow the procedures prescribed by the *New York State Procurement Guidelines*.
 - b. The Regulating District shall also document:
 - i. To the extent required by law, there be separate specifications for major

- categories for work;
 - ii. All advertisements for sealed bids be published in the manner required by law and in such other publications as are appropriate to ensure reasonable competition;
 - iii. The rationale for awarding the contract to other than the apparent low bidder be documented and retained in the procurement file; and
 - iv. Determine in accordance with 5 NYCRR §142.3(b), in writing, whether it is practicable, feasible, and appropriate to evaluate the diversity practices of potential contractors.
- 4. *Request for Proposals.* The Regulating District may solicit specific proposals for services and materials to determine the proposer's understanding of identified financial, organizational, logistical, and technical requirements. Request for Proposals may also be used when there are problems detailing elements of performance including techniques, procedures, and prices. The Regulating District will evaluate the bidder's qualifications and characteristics of the proposal including quality and cost before making a formal award.
 - a. For every contract awarded pursuant to a request for proposal process, the Regulating District shall follow the procedures prescribed by the *New York State Procurement Guidelines*. The Regulating District shall also:
 - i. Determine and document whether the contractor has the ability to perform all work required in a professional and timely manner; and
 - ii. Determine and document, in accordance with 5 NYCRR §142.3(b), in writing, whether it is practicable, feasible and appropriate to evaluate the diversity practices of potential contractors.
- 5. *Request for Qualifications.* The Regulating District shall solicit all contracts for Architectural, Engineering and Surveying (AES) services pursuant to State Finance Law Section 136a.
 - a. Under the provisions of State Finance Law Section 136a, consultant contracts for AES services under \$25,000 are not required to be awarded to the most qualified firm. However, due to the nature of these agreements, oftentimes there are amendments to these contracts made based on unforeseeable circumstances, causing the contract value to exceed \$25,000. Consequently, it is recommended that all contracts for AES services be awarded to the most qualified consultant unless the Regulating District is absolutely certain that the amount of the contract will never exceed \$25,000.
- 6. *Other Competitive Method.* The Regulating District may employ any other competitive procurement method that is consistent with the purposes of this Policy. Prior to use of any such method, the Regulating District shall maintain written procedures to, among other things:
 - a. Identify the category of procurement to which the procedure relates;
 - b. Ensure reasonable competition given the cost and type of procurement;
 - c. Require written documentation of the rationale for awarding the procurement; and
 - d. Determine in accordance with 5 NYCRR §142.3(b), in writing, whether it is

practicable, feasible, and appropriate to evaluate the diversity practices of potential contractors.

After a determination has been made to assess the diversity practices of prime contractors submitting bids or proposals, the Regulating District shall require the submission of diversity practices information as part of a contractor's bid or proposal and establish a quantitative factor for scoring diversity practices. The diversity practices information submitted should include those items listed at 5 NYCRR §142.3(e).

V. NON-COMPETITIVE PROCUREMENT METHODS

The Regulating District shall not be required to use the competitive procurement methods outlined above in the following instances:

1. *Emergency Purchase.* In the case of an emergency arising out of an accident or other unforeseen occurrence or condition whereby circumstances affecting property or other interests of the Regulating District, or the life, health, or safety of persons require immediate action, the Executive Director or his or her designee may authorize the procurement on other than a competitive basis. For each such procurement, the Procurement Officer shall prepare a written record setting forth the basis for concluding that there was an emergency and the methods used to identify the selected contractor. At the Executive Director's discretion, the Regulating District may require the contractor to submit a utilization plan (See 5 NYCRR 142.4) and comply with the post award requirements outlined at PART VII, item 11 herein.
2. *Discretionary Purchases – SB/MWBE/SDVOB.* In accordance with New York State Procurement Guidelines, the Executive Director, or designee, of the Regulating District Board may authorize the purchase of commodities or services from Small Business concerns, certified Minority or Women-Owned Business Enterprises, Service-Disabled Veteran Owned Business, or commodities or technology that are recycled or remanufactured, in an amount not exceeding one million five hundred thousand dollars (\$1,500,000) without a formal competitive process.
3. *Discretionary Purchases – Small Purchases.* The Regulating District may purchase commodities or services costing less than fifty thousand dollars (\$50,000), in the aggregate during the fiscal year, without requiring competitive quotations.
4. *Preferred Sources.* The Regulating District may obtain goods or materials from any provider which has been afforded Preferred Source status in accordance with Section 162 of the State Finance Law. Such providers include: the New York State Department of Correctional Services Division of Industries/Corcraft; Industries of the Blind of New York State; New York State Industries for the Disabled; and New York State Office of Mental Health, all of which are, by law, exempt from competitive bidding or similar requirements.
5. *Single Source:* The Executive Director and his or her designee may authorize award of a

procurement contract for commodities or services to one offeror over another pursuant to State Finance Law §163(h). For each such procurement, the Procurement Officer shall prepare a written record setting forth the circumstances leading to the selection of the vendor; the alternatives considered; the rationale for selecting the specific vendor; and the basis upon which the Regulating District determined the cost was reasonable.

6. *Sole Source.* The Executive Director and his or her designee may authorize award of a procurement contract for commodities or services where only one offered is capable of supplying the required commodities or services in accordance with State Finance Law §163(g). For each such procurement, the Procurement Officer shall prepare a written record setting forth the material and substantial reasons supporting such a sole source determination.
7. *Exempt Contracts.* The Board may authorize the solicitation and award of procurement contracts for goods or services for which a competitive procurement process is impractical. Such exempt contacts may include; services provided by legal monopolies, for example utilities.

All procurements made pursuant to this Section shall be done in accordance with law and in furtherance of the purposes enumerated in this Policy. The Regulating District shall seek competition to the maximum extent possible even for procurements made under the non-competitive methods authorized by this Policy.

VI. MONETARY THRESHOLD FOR PROCUREMENT APPROVAL

<i>\$500 or less.</i>	Procurements of \$500 or less are informal and are subject to approval by the Senior Staff Manager of the applicable department.
<i>Over \$500 - \$2,500.</i>	Non-emergency purchases over \$250 and up to \$2,500 are subject to approval by the Procurement Officer. The Procurement Officer shall assure that the procurement need is adequately documented and that budgetary guidelines are met.
<i>Over \$2,500 - \$5,000.</i>	Non-emergency purchases over \$2,500 and up to \$5,000 require pre-approval by the Executive Director.
<i>\$5,000 or more.</i>	Non-emergency purchases of goods and services in the amount of \$5,000 or more not specifically identified in the Regulating District's approved budget, and non-emergency purchases of goods and services for which a budget transfer of \$5,000 or greater is required, are subject to pre-approval by Resolution adopted by the Regulating District Board.

NYS Procurement Council Guidelines apply to procurements which exceed \$50,000. Procurements of \$50,000 and less are considered "discretionary" and are subject to these policies.

VII. PROMOTION OF MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

It is the goal of the Regulating District to (a) promote and assist participation by Certified Minority and Women-Owned Business Enterprises in competition for Procurement Contracts and to (b) award a fair share of Procurement Contracts to Certified Minority and Women-Owned Business Enterprises. It is also the Regulating District's goal to award contracts to those contractors who have evidenced compliance with the laws of the State of New York prohibiting discrimination in employment. The Regulating District recognizes that this goal may be achieved by awarding Procurement Contracts to those firms who have demonstrated that they do not discriminate in employment. Furthermore, if a Contractor utilizes a subcontractor(s) in the performance of any Procurement Contract, said Procurement Contract, where required pursuant to Article 15-A of the Executive Law, shall require the Contractor to act affirmatively to secure participation by Certified Minority and Women-Owned Business Enterprises in such subcontract and to report the nature and extent of such efforts to the Regulating District. All Procurement Contracts, where required, shall be in compliance with Article 15-A of the Executive Law, as same may be amended.

In furtherance of the above, and to promote the use of Certified Minority and Women-Owned Enterprises in Procurement Contracts, the Regulating District shall:

1. Designate appropriate Senior Staff Manager to oversee the Regulating District's programs established to promote and assist: (i) participation by certified Minority or Women-owned Business Enterprises in the Regulating District's procurement opportunities and facilitation of the award of procurement contracts to such enterprises; (ii) the utilization of certified Minority and Women-Owned Business Enterprises as subcontractors and suppliers by entities having procurement contracts with the Regulating District; and (iii) the utilization of partnerships, joint ventures, or other similar arrangements between certified Minority and Women-Owned Business Enterprises and other entities having procurement contracts with the Regulating District. Such staff shall be familiar with the procurement of the types of construction, financial, legal, or professional services utilized by the Regulating District either directly or through their designees participation in the procurement process, and shall identify those areas or types of contracts for which minority or woman-owned business enterprises may best bid so as to promote or assist participation by such enterprises and facilitate a fair share of the awarding of contract to such enterprises.
2. Establish appropriate goals for participation of minority and women-owned business enterprises on all state contracts. An overall MWBE goal and separate goals for MBE and WBE shall be established where practicable, feasible, and appropriate for the utilization of contractors, subcontractors, and suppliers.

In determining appropriate goals for a particular contract, the Regulating District shall give consideration to the following factors:

- a. The contract and subcontract scope(s) of work;
- b. The potential subcontract opportunities available in the prime contract;

- c. The relevant available data contained within the disparity study with respect to the scope of the contract and potential subcontracting opportunities;
 - d. The number and types of certified minority and women-owned business enterprise found in the directory of certified minority and women-owned businesses available to perform state contract work;
 - e. The geographic location of the contract performance;
 - f. The extent to which geography is material to the performance of the contract;
 - g. The ability of certified minority and women-owned enterprises located outside of the geographic location of contract performance, notwithstanding the regional location of the certified enterprise, to perform on the state contract;
 - h. The total dollar value of the work required by the state contract in relation to the dollar value of the subcontracting opportunities;
 - i. The relationship of the monetary size and term of the state contract to the monetary size and term of the project for which the state contract is awarded; and
 - j. The Regulating District's annual agency-specific MWBE goal.
3. Maintain a list of qualified certified minority and women-owned business enterprises including professional firms that have expressed an interest in doing business with the Regulating District and ensure that such lists are updated regularly. The Regulating District will supply said list to each contractor in the bid packet.
 4. Consider severing/unbundling contracts and/or construction projects to facilitate bidding by, and awarding of contracts to minority and women-owned business enterprises.
 5. Consult any list maintained by any state agency or department known to the Regulating District, including the Department of Economic Development, which identifies Minority and Women-Owned Business Enterprises by area of expertise and shall contact appropriate Certified Minority and Women-Owned Business Enterprises listed therein to solicit their offers.
 6. Solicit offers from Minority and Women-Owned Business Enterprises known to have experience in the area of the goods or service to be provided on Procurement Contracts in accordance with Article 15-A of the Executive Law, as same may be amended.
 7. Provide an electronic link to the list of certified minority-owned and women-owned business enterprises maintained by the commissioner of economic development within all bid documents supplied to potential bidders.
 8. Provide notice of any procurement to appropriate professional organizations that serve Minority and Women-Owned Business Enterprises so that members of these organizations are apprised of potential opportunities to contract with the Regulating District.
 9. Notify contractors in bid documents, requests for proposals, contract announcements, advertisements, or in other written form of the three goals listed above.
 10. Conduct procurements in a manner that sets forth the degree of minority and women-

owned business enterprise participation expected of the contractor and any subcontractor to enable the Regulating District to achieve the maximum feasible portion of the goals established pursuant to Part VII subsection 2 above and that eliminates barriers to participation by Minority and Women-Owned Business Enterprises on Procurement Contracts.

11. Verify that minority and women-owned business enterprises listed in a successful bid are actually participating to the extent listed in the project for which the bid was submitted by:
 - a. Requiring a contractor to submit a utilization plan after bid documents are opened, but prior to award of the contract for any request for bids, proposals, or qualifications, or for negotiated contracts;
 - b. Posting the utilization plan (and any waivers of compliance issued pursuant to Part VII, Item 12 below) as well as the information required at 5 NYCRR 142.5(a) on the Regulating District's website upon award of the contract;
 - c. After commencement of contract work, posting any waivers of compliance or modification to the utilization plan issued by the Regulating District on the Regulating District's website within ten (10) days of making such a decision;
 - d. Notifying the contractor in writing within ten (10) days of utilization plan submission of any deficiencies contained in the contractor's utilization plan;
 - e. Requiring the remedy of any deficiencies in the contractor's utilization plan within a period specified by the Regulating District's Executive Director;
 - f. Requiring the contractor to submit periodic compliance reports relating to the operation and implementation of the contractor's utilization plan;
 - g. Including within all bid documents supplied to potential bidders that contractors may file a complaint with the director of the Division of Minority and Women's Business Development in the NYS Department of Economic Development in the event that the Regulating District has failed or refused to issue a waiver of the minority and women-owned business enterprise participation requirements or has denied such request for a waiver; and
 - h. Including within all bid documents supplied to potential bidders that contractors may file a complaint with the director of the Division of Minority and Women's Business Development in the NYS Department of Economic Development in the event that a contractor is failing or has failed to comply with the minority and women-owned business enterprise participation requirements set forth in the contract where no waiver has been granted.

12. Where it appears that a contractor cannot, after a good faith effort, comply with the minority and women-owned business enterprise participation requirements set forth in a particular state contract, a contractor may file a written application with the Regulating District requesting a partial or total waiver of such requirements setting forth the reasons for such contractor's inability to meet any or all of the participation requirements together with an explanation of the efforts undertaken by the contractor to obtain the required minority and women-owned business enterprise participation. In implementing the provisions of this section, the Regulating District shall consider:
 - a. The number and types of minority and women-owned business enterprises located

- in the region in which the state contract is to be performed;
- b. The most recent disparity study pursuant to Article 15-A of the Executive Law;
- c. The total dollar value of the state contract;
- d. The scope of work to be performed; and
- e. The project size and term.

If, based on such considerations, the Regulating District Board determines there is not a reasonable availability of contractors on the list of certified business to furnish services for the project, it shall issue a waiver of compliance to the contractor. In making such determination, the Regulating District Board shall first consider the availability of other business enterprises located in the region and shall thereafter consider the financial ability of minority and women-owned businesses located outside the region in which the contract is to be performed to perform the state contract.

VIII. PROMOTION OF NEW YORK STATE BUSINESS ENTERPRISES AND RESIDENTS

It is the Regulating District's goal to promote the participation of New York State Business Enterprises and New York State Residents in Procurement Contracts. The Regulating District shall:
